

DIGGERS™ Glue Rid

DESCRIPTION

DIGGERS™ Glue Rid is a solvent-based gel that easily removes the adhesive remaining after vinyl, cork or carpet has been removed from concrete or wooden surfaces. The gel formulation is ideal for vertical surfaces.

TYPICAL USES

- Heavy duty contact adhesive remover for:
- Vinyl glue
- Cork glue
- Carpet glue
- Concrete and wooden surfaces

NOTE: Not suitable for black polyurethane-based glues as used in the 1950s.

FEATURES

- Colourless jelly with a strong odour
- Gel formula for vertical surfaces
- Slow evaporation rate
- Treats approximately 8m² per litre
- Easy-to-use

APPLICATION

Cut glue with a sharp knife in cross sections to allow **DIGGERS™ Glue Rid** to penetrate more effectively. Shake can before use. Brush **DIGGERS™ Glue Rid** onto the glue to be removed (not more than can be completed in 30 minutes) but do not let dry. In hot weather **DIGGERS™ Glue Rid** may evaporate at a faster rate than in cooler weather.

Allow to soak for 10 minutes.

If required, sprinkle sand over the top to help contain the glue. Remove the gel and glue with a scraper and dispose. To remove remaining sticky film wipe surface with **DIGGERS™ Mineral Turpentine**.

SAFETY

Wear suitable protective clothing, gloves and eye/face protection when using this product. Keep away from sources of ignition.

TYPICAL CHARACTERISTICS

Appearance colourless gel
 Odour aromatic
 Specific Gravity 0.871
 Flash Point 4°C (Abel)
 Boiling Point 110–111°C
